Clay Tablet Connector for Adobe Experience Manager

Version 2.4.1

Release Notes

July 27, 2015

Overview

Welcome to the Clay Tablet Connector for Adobe Experience Manager ("Connector"). The Connector enables you to automate sending and retrieving content from your Adobe Experience Manager CMS, which dramatically reduces the effort required to create, maintain, and publish Web content in multiple languages

How to Contact Clay Tablet Support

Email @: support@clay-tablet.com

Telephone: +1-416-363-0888 option "3"

System Requirements

The Clay Tablet Connector for Adobe Experience Manager ("AEM") must be installed on the AEM Author server. The Clay Tablet Connector for AEM supports AEM versions 5.6.1 and higher.

The Clay Tablet Connector for AEM has no additional hardware or software requirements beyond those of AEM. For detailed requirements, refer to the appropriate version of the *Adobe Experience Manager Technical Requirements*.

Issues Fixed in This Release

Issue ID	Description
AEM-494	The Connector now submits translation jobs as expected from AEM's Touch UI when the **Use Local TM** check box was selected. Previously, when using AEM 6.1 and the Connector version 2.4.0 to submit jobs from AEM's Touch UI when the **Use Local TM** check box was selected, the Connector did not send out the source content for translation.
AEM-528	The **Add** button on the **Language Mapping** page now works as expected with versions of AEM lower than 6.1. Previously, when using versions of AEM lower than 6.1 with the Connector version 2.4.0, the **Add** button on the **Language Mapping** page did not work, which prevented users from adding new languages to the list.
