LIONBRIDGE

Lionbridge App for Oracle Eloqua

Version 2.0.1

Release Notes

December 10, 2019

Overview

Welcome to the Lionbridge App for Oracle Eloqua (App). The App enables you to automate sending and retrieving content from Oracle Eloqua, which dramatically reduces the effort required to create, maintain, and publish Web content in multiple languages.

How to Contact Lionbridge Connector Support

What's New?

You can use the new **Custom Handler Classes** field in the new **Asset Preprocessing** section in the **Translation** tab of the **Site Configuration** dialog box to specify a custom Java class for processing assets before the App sends them for translation. For example, you can create and specify the custom Java class to remove the Eloqua tracking ID from the URL of hyperlinks inside the content of an asset before the App sends it for translation.
